WEZE

THE SOUND OF NEW LIFE, **1260 AM BOSTON**

Mr. Bill Borrows
709 Division Street
Glouster City, NJ
08030

January 19,1988

Dear Mr. Burrows:

Thank you for your documentation validating the reception of WEZE. We are happy to confirm your reception on March 12, 1988 at 1902 - 2003 E.S.T. , and include a token of our appreciation of your report.

WEZE is a Christian broadcaster, part of a group of stations owned and operated by Salem Communications Corporation. The transmitter site and frequency, 1260 KHZ, has been in use since the mid 1940's.

WEZE operates at a power level of 5 kilowatts both day and night time. We are a 24 hour licensed station serving New England and the greater Boston Massachusetts area.

During the day our antenna pattern is non-directional, and at night, it is a north directed cardioid antenna pattern. The night antenna employs a three tower dog-leg configuration. WEZE is completely solid state technology, from the "microphones to the antenna", utilizing a Nautel 5 Kilowatt, PDM modulated, solid state transmitter.

Thank you for your interest in our station.

Yours truly,

Richard W. Jolls
Chief Engineer, WEZE .
